

Resume Strong Python

Senior ML engineer with 7 years of Python and deep-learning production experience.

Skills

- Python
- FastAPI
- PyTorch
- TensorFlow
- scikit-learn
- FAISS
- sentence-transformers
- AWS
- Docker
- Kubernetes
- SQL
- PostgreSQL
- Terraform

Experience

Acme AI - Staff ML Engineer (2021-present)

- Owned the ranking model that powers our recruiter search.
- Built FastAPI inference service handling 4k req/sec on ECS Fargate.
- Cut p99 latency from 900ms to 180ms with FAISS + ONNX optimisation.
- Led migration from TensorFlow 1 to PyTorch 2.

Globex Research - ML Engineer (2018-2021)

- Trained and shipped recommendation models using PyTorch and LightGBM.
- Authored the team's experimentation framework in Python.
